SATISFIESTROUBLE OVER
KLONDYKE MINE

JAMES GOLDEN HAS CHAS. LEE
ARRESTED AS RESULT OF
QUARREL WEDNESDAY

Charles M. Lee came in from Klondyke and appeared before Judge Barnes this morning in answer to a warrant sworn to by Jim Golden charging him with threats to kill and demanding that he be bound over to keep the peace, says the Tribune. Lee was released on \$500 bail furnished by C. G. Kraus and Robert H. Tacker.

Golden's witnesses say Lee on last Wednesday went up to where Golden and his men were standing near Peterson's lease and threatened Golden with a pick, at the same time saying: "I'll run you out of Klondyke." Lee is also accused of saying he would "get" Golden, and the witnesses say he chased the latter 150 feet.

Lee denies the charge and has two witnesses who have been subpoenaed to testify in his favor when the case comes up before Judge Barnes tomorrow afternoon.

KNOX EXERCISES
OPTION ON THE
PRINCE PROPERTY

REPORTED THAT PRESIDENT OF
MONTANA TONOPAH AC-
QUIRES PROPERTY

It was learned last night that A. Y. Smith, the engineer on the Chas. E. Knox staff, who has had in charge the examination of the Prince Consolidated property for the Knox and associated interests, had departed on the evening train for the Pioche district, and that he leaves for the purpose of taking charge as general manager of the Prince properties, says the Salt Lake Tribune. To those not on the inside this action can mean absolutely nothing but that Mr. Knox has exercised his option upon the control of the organization, and that the deal for the Prince is positively closed, or is so near to this consummation that there can be no doubt of its final and complete success.

The details by which the Knox interests acquired the control of the Prince Consolidated company have not been ascertained as yet, but it is known that large shareholder interests in Utah and Kentucky were tied up several months ago, following which Mr. Knox had, through Engineer Smith and others, a most painstaking examination of the property made. Several weeks ago Mr. Knox stated that not only were the resources now blocked out thoroughly sampled, but that exhaustive analyses had been made, and the proposition viewed from every possible standpoint, and there has been no doubt in the minds of Utahans familiar with this mine that the deal would be consummated in due time.

Within the oxidized zone of the Prince Consolidated property is a large tonnage of fluxing ores which are being shipped under contract at a liberal rate to the International Smelting and Refining company's plant at Tooele. Recent diamond drill work below the bottommost level of the Prince has been productive of bringing the sulphide zone to view, and good values have been encountered at a point where such results could not have been anticipated.

icipated in view of the results theretofore obtained on the levels above this particular locality. This indicates that the drill work, when confined to that part of the property heretofore on the upper levels productive of the largest bodies of ore, eventually will be far more interesting and valuable, and Mr. Knox and associates are deemed fortunate in acquiring this property on the first edge of the production era and the demonstration of the property's merits with depth.

Is A "Regular Customer"
Worth to Your Store?

Suppose you could BUY 100 additional REGULAR CUSTOMERS during the next week or two—customers who, for years and years, to come, would make a MAJORITY of their purchases of goods in your line at YOUR STORE?

What would each of these 100 customers be WORTH to you?

It is, we think, quite likely that if such an investment were possible, you'd eagerly pay TWICE AS MUCH as it would cost you to secure these 100 REGULAR CUSTOMERS through an advertising campaign big enough and aggressive enough to really make people ACQUAINTED with your store!
